

windream goes to Britain!

Weir Strachan & Henshaw purchases 250 licences of windream Business Edition

Introduction

26th February, 26th 2004, Bochum - The British enterprise Weir Strachan & Henshaw (Weir S&H) has chosen **windream** as a document management and archiving system for administering company-related documents. With Weir S&H, windream GmbH has won a new worldwide leading customer from the sector of high-tech business.

The Client Organisation

Bristol based Weir S&H is one of Europe's leading engineering and project management companies, designing and manufacturing safety-critical systems for the defence and nuclear industries.

Weir S&H is at the forefront of waste management and decommissioning technology development and has been a principal equipment supplier to the UK nuclear industry for over 50 years. It maintains a site presence at a third of the country's nuclear facilities, maintaining its own and other contractors' equipment on a daily basis.

It also has an enviable pedigree within the defence industry; Weir S&H equipment is utilised in every serving class of UK submarine and in Australian, US and European Navies. Whether under the waves or above the surface, Weir S&H's involvement with the Royal Navy is extensive and its vast experience of naval equipment places it in a unique position among potential suppliers to the MoD and defence Prime Contractors. It has successfully supplied performance and safety critical engineering systems such as munitions handling, torpedo and missile launch systems, helicopter handling and shipboard waste processing equipment, the latter developed in order to minimise pollution of the oceans.

Weir S&H have purchased 250 licences of the **windream** Business Edition. Additionally, the company will equip each **windream** workstation with the **windream** DocView Software. This module allows users to quickly view any document stored in the DMS without having to open the associated original application.

The British distribution partner – CC Data Ltd. situated in Harpenden - is supporting the project.

About Weir S&H

Weir Strachan & Henshaw (Weir S&H) operates within Weir Services Division - part of The Weir Group PLC. Weir Services Division has operations throughout Europe, the Middle East, Australasia and Canada. The division employs 1800 people worldwide, supported by the headquarters' team in Glasgow. Turnover in 2002 was £180 million and the business has doubled in size over the last five years. The division supports customers in the power, water, oil and gas and industrial sectors, providing expertise in the installation, repair and maintenance of rotating equipment as well as customers operating in the areas of defence and nuclear. More information is available at www.weirservices.com.

About the windream Document Management System

windream is an internationally patented system, considered one of the technologically leading solutions in document management and archiving. It is the first DMS to be totally integrated into the Windows Operating System and is very intuitive to use.

In 1998 windream was first released as a single user edition, closely followed by a network enabled multi-user edition. The current version of windream (3.6) has been in circulation since 2003 and is available in two editions - **Standard Edition** for small to medium-sized companies and the **Business Edition** for larger enterprises.

About windream GmbH

windream GmbH develops and distributes the windream document management and archiving system. At present, the company employs about 40 people who are involved in development, partner and customer support, and distribution and marketing. They have a network of around 200 distribution, integration and cooperation partners throughout Europe as well as Australia and New Zealand.

Multinational enterprises like ThyssenKrupp, John Deere, Bayer AG and Deutz AG are amongst the company's customers. The shareholders in windream GmbH are Roger David (Managing Director) and Hanseatische Venture Capital GmbH (HVC), situated in Bremen.

About CC Data Ltd

Established in 1994, CC Data Ltd have been developers and value-added distributors of document management solutions for 12 years. windream is a key component of a best-of-breed software portfolio which also includes email archiving, purchase invoice processing and print-stream archiving.
